The applicant will provide the following information for an **area** or **dimension** variance:

1. A complete scaled plot plan of the subject property identifying:

  - F. Proposed addition(s) with setbacks clearly identified.
2. A typewritten or clearly handwritten letter outlining the variance request.
3. Responses to the variance criteria listed on the Criteria for Approval form.
4. Written consent of all owners of the property in question.

Pine River Township will provide the following information:

- C. Procedures used by the Zoning Board of Appeals.
- D. Information about appeals, variances, temporary permits or special approvals.
- E. Applicable variance criteria or special instructions.
- F. Notification of affected property owners within 300 feet.

The Zoning Board of Appeals has the authority to require a land survey prepared by a professional surveyor or registered engineer if the Zoning Board of Appeals determines it to be necessary to insure accuracy of the plan.

**AREA OR DIMENSION (NON-USE) VARIANCES**

**ZONING BOARD OF APPEALS**

**Criteria for Approval**

**The Zoning Board of Appeals may grant a requested “non-use” variance only upon a finding that practical difficulties exist. A finding of practical difficulties is when the applicant has demonstrated all of the following:**

- a. How will strict compliance with restrictions governing area, setback, frontage, height, bulk, density or other non-use matters, unreasonably prevent the owner from using the property for a permitted purpose or will render ordinance conformity unnecessarily burdensome?

---

---

---

---

---

---

---

---

---

---

- b. How will a variance do substantial justice to the applicant, as well as to other property owners?

---

---

---

---

---

---

---

---

---

---

- c. Is the variance requested the minimum variance needed to provide substantial relief to the applicant and/or be consistent with justice to other property owners?

---

---

---

---

---

---

---

---

- d. What are the unique circumstances peculiar to the property and not generally applicable in the area or to other properties in the same zoning district, which would require this variance?

---

---

---

---

---

---

---

---

- e. Has the problem and resulting need for the variance been created by strict compliance with the Zoning Ordinance, not by the applicant or the applicant's predecessors?
